

Postdoctoral Fellowship

NIH-supported postdoctoral positions are available to investigate the pathogenic mechanisms of diabetic retinopathy and age-related macular degeneration. Information regarding the area of research can be found in: <http://w3.ouhsc.edu/Endocrinology/faculty/Le.asp>. Successful candidates must have a Ph.D. or M.D. with a strong background in biochemistry, molecular biology, cell biology, mouse genetics, retinal biology, or vascular biology, excellent skills in data analysis, organization and management. The positions require a 2-year commitment and may be extended. Salary is commensurate with experience. Please send a CV, cover letter, and contact information of three references to the following address. E-mail application is preferred. No phone calls please.

Yun Le, Ph.D.
Associate Professor
Harold Hamm Oklahoma Diabetes Center
University of Oklahoma Health Sciences Center
