DIABETES MANAGEMENT AND TEACHING STRATEGIES
DAY ONE
Tuesday, March 28 – Oklahoma City
Tuesday, April 4 – Tulsa

7-7:50 a.m.
Registration and Exhibits

7:50-8 a.m.
Opening Remarks
Sharon Buckley, R.N., C.D.E.
Program Director, Oklahoma Diabetes Center
OU College of Medicine, Endocrinology and Diabetes Section

8-9 a.m.
Types of Diabetes and Pathophysiology
Mary Zoe Baker, M.D.
Professor, University of Oklahoma College of Medicine
Endocrinology and Diabetes Section

9-10 a.m.
Obesity and Type 2 Diabetes in Children
Luis Casas, M.D.
Clinical Instructor, Adult and Pediatric Endocrinology
Director, Adult Cystic Fibrosis Program
University of Oklahoma Health Sciences Center

10-10:20 a.m.
Break and Exhibits

10:20-11:20 a.m.
Management of the Acute Complications of Diabetes
Hal Scofield, M.D.
Professor, University of Oklahoma College of Medicine
Endocrinology and Diabetes Section

11:20-12:20 p.m.
Lunch and Exhibits

12:20-1:20 p.m.
Microvascular Complications of Diabetes
Tan Pham, M.D.
Assistant Professor, University of Oklahoma College of Medicine
Endocrinology and Diabetes Section

1:20-2:20 p.m.
Treatment Options for Type 2 Diabetes: Expanding Beyond Oral Agents and Insulin
Clinical Programs Director and Clinical Assistant Professor
Diabetes and Endocrinology Section
Department of Pediatrics, OU College of Medicine

2:20-2:40 p.m.
Break and Exhibits

2:40-3:40 p.m.
Macrovascular Disease and Diabetes
Leann Olansky, M.D.
Professor, University of Oklahoma College of Medicine
Endocrinology and Diabetes Section

3:40-4:40 p.m.
Managing Diabetes with Nutrition Therapy
Diabetes Clinician, Oklahoma Diabetes Center
OU College of Medicine, Endocrinology and Diabetes Section

4:40-4:45 p.m.
Closing and Evaluation

DIABETES MANAGEMENT AND TEACHING STRATEGIES
DAY TWO
Wednesday, March 29 – Oklahoma City
Wednesday, April 5 – Tulsa

7-7:50 a.m.
Registration and Exhibits

7:50-8 a.m.
Opening Remarks
Sharon Buckley, R.N., C.D.E.

8-9 a.m.
Type 2 Diabetes and the Role of Insulin
Cheryl Meyer, R.N., C.D.E.
Diabetes Nurse Clinician, Insulin Pump Coordinator
Oklahoma Diabetes Center, OU College of Medicine
Endocrinology and Diabetes Section

9-10 a.m.
Diabetes in Pregnancy

10-10:20 a.m.
Break and Exhibits

10:20-11:20 a.m.
Intensive Insulin Management and Pump Therapy
Cheryl Meyer, R.N., C.D.E.

11:20-12:20 p.m.
Lunch and Exhibits

12:20-1:20 p.m.
Macrovascular Complications of Diabetes
Tan Pham, M.D.
Assistant Professor, University of Oklahoma College of Medicine
Endocrinology and Diabetes Section

1:20-2:20 p.m.
Treatment Options for Type 2 Diabetes: Expanding Beyond Oral Agents and Insulin
Clinical Programs Director and Clinical Assistant Professor
Diabetes and Endocrinology Section
Department of Pediatrics, OU College of Medicine

2:20-2:40 p.m.
Break and Exhibits
1:20-2:20 p.m.
Let’s Get Physical
Donna Olson, M.S., A.C.S.M.-H.F.I., C.H.E.S.
Chickasaw/Native American Diabetes Educator
TODAY Study/OU Children’s Diabetes Center
Oklahoma City

2:20-2:40 p.m.
Break and Exhibits

2:40-3:40 p.m.
Those Ups and Downs – Pattern Management
Sharon Buckley, R.N., C.D.E.

3:40-4:40 p.m.
Foot Care Workshop
Wound Care Specialist, Midwest Regional Health Center
Midwest City

4:40-4:45 p.m.
Closing and Evaluation

WHO SHOULD ATTEND?
This program is intended for nurses, dietitians, pharmacists or any health professional who would like an update on the fundamental concepts that support diabetes education and management. The program will supplement your study for certification as a diabetes educator.

DAY ONE LEARNING OBJECTIVES
Upon completion of this activity, the participant should be able to:

- Describe the pathophysiology and types of diabetes mellitus.
- Describe three clinical signs and symptoms of diabetes.
- Explain obesity and the impact on development of Type 2 diabetes in children.
- Identify management strategies and developmental concerns in the child with Type 2 diabetes.
- Describe three prevention strategies for DKA, HHNK and hypoglycemia.
- Identify the current treatment modalities for DKA, HHNK and hypoglycemia.
- Describe the microvascular complications of diabetes mellitus and their impact on management.
- Describe ophthalmic conditions that may occur in persons with diabetes.
- Describe nephropathy, risk factors and treatment modalities.
- Describe the pharmacologic treatment of diabetes.
- Compare and contrast available oral diabetes medications.
- State the mechanism of action and three side effects for each oral agent.
- Describe the mechanism of action of Byetta and its role in the treatment of Type 2 diabetes and describe how to initiate and monitor therapy.
- Describe the macrovascular complications of diabetes and their impact on diabetes management.
- Identify hypertensive conditions and treatment in diabetes.
- Identify dyslipidemia in diabetes and state the treatment modalities.
- Discuss the nonpharmacologic management and therapies for diabetes.

DAY TWO LEARNING OBJECTIVES
Upon completion of this activity, the participant should be able to:

- Describe how insulin may improve glycemic control in patients with Type 2 diabetes.
- Describe the metabolism of normal pregnancy and the alterations that occur in overt and gestational diabetes.
- Describe the diagnostic criteria and screening recommended by the American Diabetes Association.
- Discuss potential maternal and neonatal complications.
- Describe recommended treatment options for diabetes in pregnancy.
- Describe when and how to start intensive insulin therapy.
- Discuss how to identify depression in patients.
- Describe effective treatments for patients with depression.
- Review existing guidelines for physical activity.
- Review the basics of effective behavior change techniques.
- Formulate a physical activity behavior change plan.
- Discuss ways to enhance goal achievement.
- State three questions to ask when evaluating blood glucose readings.
- Identify problem-solving options and management patterns in three cases.
- Identify the risk for development of wounds in the patient with diabetes.
- Describe patient assessment criteria to identify potential for and presence of wounds in the patient with diabetes.

NURSING CONTINUING EDUCATION
Lowcountry Area Health Education Center is approved as a provider of continuing education in nursing by the South Carolina Nurses Association, which is an accredited approver of continuing education by the American Nurses Association’s Commission on Accreditation. This education design one has been approved for 8.4 contact hours (day one) and 8.4 contact hours (day two). Neither Lowcountry AHEC nor the American Nurses Credentialing Center endorses or approves any products that may be associated with this continuing education activity. Note: Participants must attend 90 percent of the educational offering to receive a certificate of attendance. No partial credit will be given.

DIETITIAN CONTINUING EDUCATION
Continuing education for registered dietitians is approved for 7.0 contact hours (day one) and 7.0 contact hours (day two).

AWARDING CREDIT FOR PHARMACISTS
Continuing education has been approved by the Oklahoma State Board of Pharmacy for 7.0 contact hours (day one) and 7.0 contact hours (day two).
