

Acknowledgments

The success of the SAFE Program has depended on the work and support of many people to whom I wish to express my sincere gratitude. The development and growth of this program have been very personally and professionally rewarding, and I greatly appreciate the support I have received.

The creation and dissemination of this manual were supported by a Clinical Educator Grant sponsored by the VISN 16 South Central Mental Illness Research, Education, and Clinical Center (MIRECC) under the leadership of Greer Sullivan, M.D., M.S.P.H., Michael Kauth, Ph.D., and JoAnn Kirchner, M.D. Thank you, Greer, Michael, and JoAnn, for your unending support, mentorship and wisdom.

I wish to thank Dona Zanotti, Ph.D., and Sonora Hudson, M.A., for their review and editing of the manual. I appreciate the graphic design work created by Matthew Dunham and Suzie Carter. Special thanks to Glen Collymore of the University of Oklahoma Health Sciences Center Information Technology Division for hosting the SAFE Program on its website.

I also wish to thank and applaud Susan McCutcheon, Ed.D., and Shirley Glynn, Ph.D., both of VA Central Office, for their commitment to expanding the provision of family services across the VA system. I admire both of these dedicated, hardworking, creative dynamos, and thank them for their assistance and mentorship.

Michelle D. Sherman, Ph.D.
Director, Family Mental Health Program, Oklahoma City Veterans Affairs Medical Center
Affiliate Research Investigator, South Central MIRECC
April 2008
