Personal Preference Indicators

This document is designed to help you communicate about things in life that you like and things that you dislike. This gives you the opportunity to be involved in making decisions concerning your present and future needs.

Use this document to indicate **your** preferences for everyday activities. Examples are given of what others have said are important to them. **You can choose any of those items, or you can write-in what you want people to know about you.**

The people who provide your care may not know you well. Sometimes you may feel left out of the decision making process. The information that you provide here can help care providers to better understand who you are. Understanding your preferences will help them make your life as enjoyable as possible.

Please be aware that the information you provide on this questionnaire is NOT confidential. The purpose is for nursing, housekeeping, and other care providers to review it and try to accommodate your preferences.

MY PERSONALITY

You can choose any of the listed examples, or you can write in things you would like people to know about you. Use the space provided below each question for details.

Some things about me:

- | | |
|---|---|
| <input type="checkbox"/> I prefer to do activities alone
