

Educational Scholarship

Friday, May 19, 2006 with Dr. Chris Candler, M.D., Association of American Medical Colleges

This session will introduce the role and importance of educational scholarship in academia. The overall goal of the session is to review the available mechanisms for peer review and dissemination of educational scholarship toward the end of advancing the knowledge base of health sciences educational techniques.

Learning Objectives

At the completion of this presentation, participants will be able to:

- Define educational scholarship
- Analyze the principles of educational scholarship
- Discuss two important components of educational scholarship: peer review and dissemination
- List the challenges of educational scholarship in the healthcare setting
- Explore the use of MedEdPORTAL in facilitating educational scholarship
