SOCIAL MEDIA SECURITY ESSENTIALS FOR OUHSC FACULTY, STAFF AND STUDENTS

**April Lee, CISSP
Senior Security Analyst, IT Information Security
Services
University of Oklahoma Health Sciences Center**

Learning Objectives

1. Understand State Guidelines
2. Understand OU Physicians Policy
3. Identify common threats

State Guidelines – Personal Use of Social Media

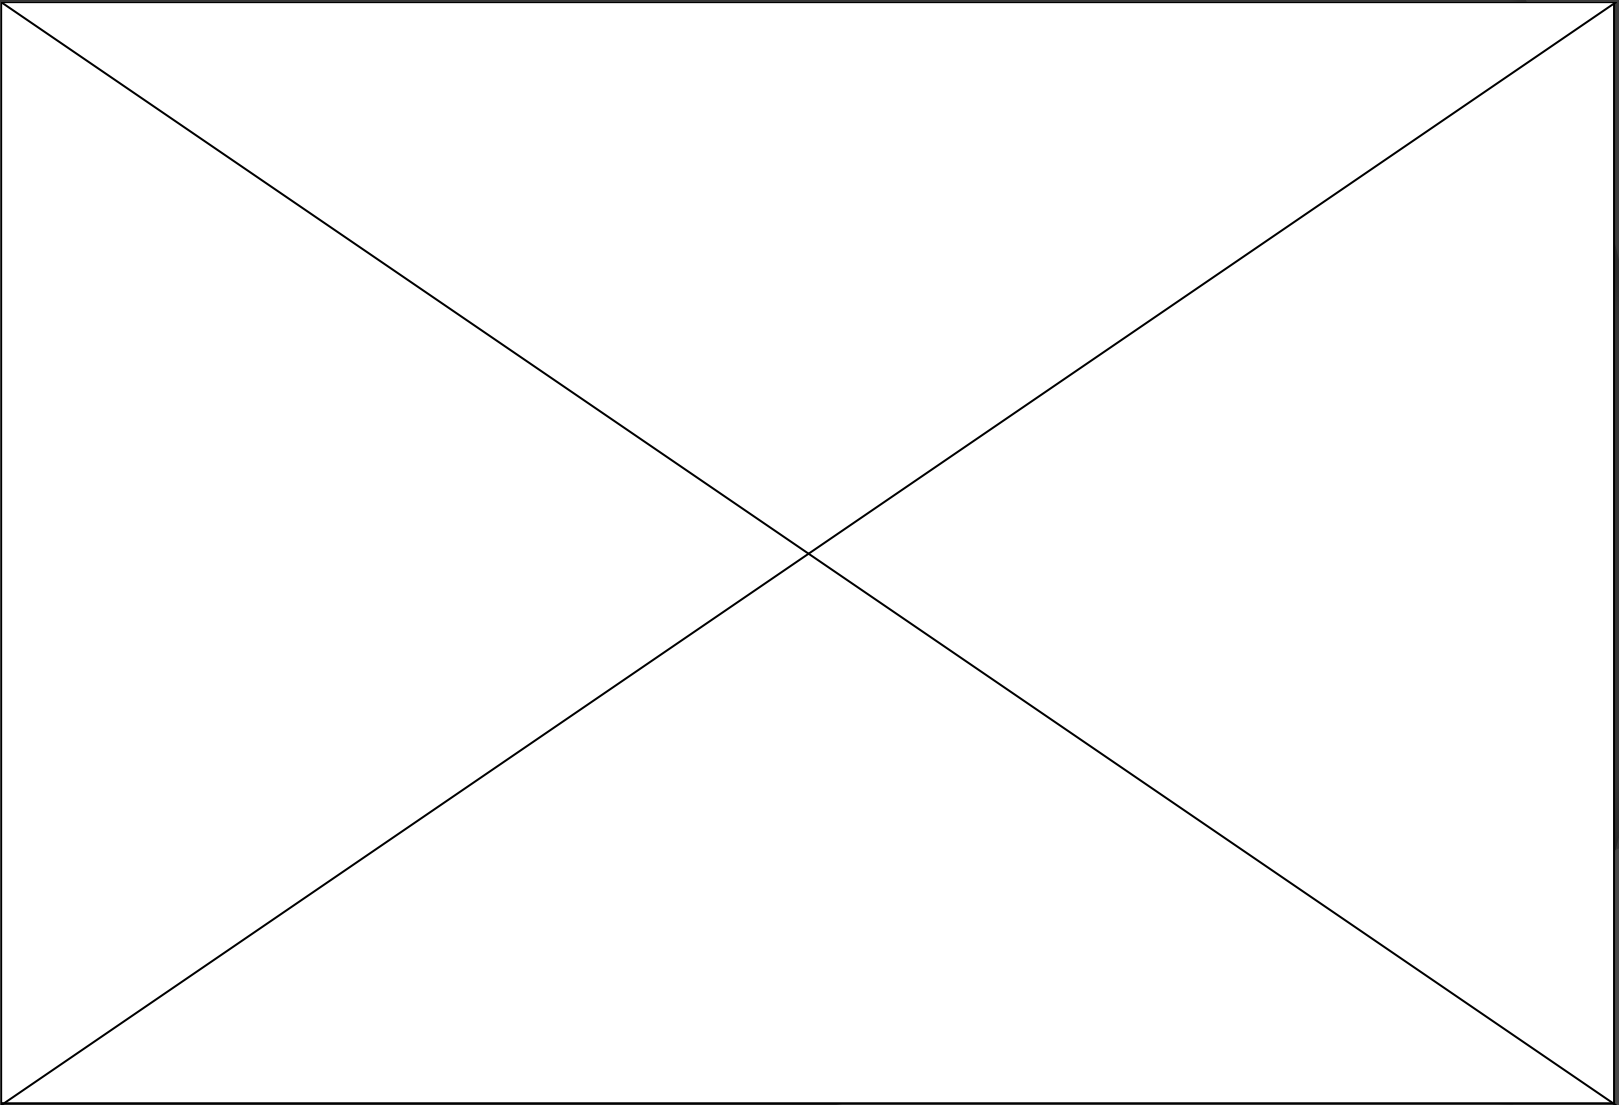

- Remain personal in use only
- Use personal email account for registration

Using personal accounts for business comments guidelines:

- State your name and role
- Use a disclaimer

The Locklear Effect

OU Physicans – Social Media Operating Protocol

- ⦿ Follow University, state and federal rules & regulations
- ⦿ Refer to Social Media Guidelines
- ⦿ PHI MUST NOT be shared
- ⦿ Sensitive or proprietary information MUST NOT be shared

OU Physicans – Policies

- You are personally responsible for content
- Personal social media relationships with patients, patient family members, etc. are prohibited
- Remember professional at all times
- Personal social media activities should occur outside of business hours

OU Physicians – AMA Recommendations

- Patient privacy and confidentiality requirements
- Use privacy settings
- Routinely monitor privacy settings for changes
- Maintain appropriate boundaries
- Consider separating personal and professional
- Report unprofessional content
- Remember content is subject to interpretation

OUHSC Information Security – OMES Recommendations

- Use a unique username/password combination
- Transmission of sensitive information is prohibited
- OUHSC E-Mail policies apply to files shared over social media

Social Networking Threats

- ◉ Access Privileges
- ◉ Cross-Site Scripting (XSS)
- ◉ Identity Spoofing
- ◉ Malware Downloads
- ◉ Social Engineering
- ◉ URL Spoofing

Social Networking Best Practices

- Include an Approved Disclaimer
- PHI Through Social Media is Prohibited
- Manage Administrator Accounts
- Keep Posts Professional
- Use Appropriate Citations
- Keep Professional and University Social Media Sites Separate
- When in Doubt, Consult Legal

Resources

- ◎ Follow policies to help protect your data
