

Office of the Vice Provost for Academic Affairs & Faculty Development
Educators for Excellence 2015

Educators for Excellence (E for E) is an initiative for fellowship, dialogue and discovery about what it takes to promote and sustain educators for excellence in teaching and learning

You are cordially invited to join us for an Educators for Excellence
Breakfast Roundtable with guest educator

AVIAD HARAMATI, PH.D.

Professor of Physiology and Director, Center for Innovation and Leadership in
Education, Georgetown University School of Medicine

We've invited Dr. Haramati to speak and reflect with us on the topic

**EDUCATING THE EDUCATORS:
A MANDATE FOR EVERY MEDICAL CENTER**

**Tuesday, October 13, 2015, from 7:30 AM – 9:00 AM
Bird Library, Faculty Atrium**

*The courtesy of your RSVP will be appreciated no later than **Friday, October 9, 2015***

I will attend [click here](#)

Sorry, I cannot attend [click here](#)

I hope time and interest will enable you to join us for this breakfast roundtable. Valerie

BRIEF BIO SKETCH

Aviad (Adi) Haramati is a tenured Professor of Physiology in the Departments Biochemistry, Molecular & Cellular Biology and Medicine and Director of the Center for Innovation and Leadership in Education at Georgetown University School of Medicine. He has been recognized with 9 Golden Apple awards from medical and graduate students at Georgetown University, and selected by faculty and alumni for the Magis Master Teacher Award. He also received the Kaiser-Permanente Excellence in Teaching of the Basic Sciences, the Arthur C. Guyton Teacher of the Year award by the American Physiological Society, and the Alpha Omega Alpha Robert J. Glaser Distinguished Teaching Award from the Association of American Medical Colleges. In July 2010, he received the Master Scholar Award from the International Association of Medical Science Educators (IAMSE). He is the past-president of IAMSE, past Vice-Chair of the Consortium of Academic Health Centers for Integrative Medicine, and President of the USA Chapter of the Israel Medical Association's World Fellowship. Dr. Haramati received NIH support to fund a broad educational initiative aimed at incorporating complementary, alternative (CAM) and integrative medicine into the medical curriculum at Georgetown University. The goal of the initiative is not to train practitioners of CAM, but rather to educate skillful, knowledgeable physicians who understand the role of CAM in healthcare and are capable of discussing these issues with their patients. Dr. Haramati has a deep interest to improve health professions education across the globe, especially with regard to the intersection of science, mind-body medicine and professionalism. He has been a Visiting Professor at over 50 medical schools around the world, and currently works with a number of deans and educators in North America, Europe and Israel.
